

Let's Go Birding!

Outdoor & Indoor Activities

Listening Activity

Go outside and quietly listen to the sounds around you. As you do this, try to pay attention to any sounds that may be coming from birds (bonus if you can see a bird making the noises you hear).

- Try to count how many different sounds you can hear. How many sounds did you count?
- How many different sounds did you hear from birds? Did you see any birds making sounds?
